Objective

Motivated Computer Science graduate with strong fundamentals in programming, data structures, and web technologies. Seeking an entry-level role to apply problem-solving skills and contribute to the development of scalable and maintainable software solutions.

Education

B.Tech in Computer Science and Engineering – State Technical University

2021 – 2025

Relevant coursework: Data Structures, Algorithms, DBMS, Operating Systems, Computer Networks

Technical Skills

Programming Languages: Python, Java, C

Web Technologies: HTML, CSS, JavaScript, React (basic)

Databases: MySQL

Tools & Platforms: Git, GitHub, Linux, VS Code

Core Concepts: OOP, Data Structures, DBMS, Operating Systems

Projects

- Student Management System – Developed a Python-based application with CRUD operations and MySQL database integration to efficiently manage student data.
- Web Application Project – Designed a responsive web application using HTML, CSS, and JavaScript with form handling, validation, and client-side interactivity.

Internship / Training

Completed short-term internship or structured training in software development, gaining hands-on experience in Python programming, version control using Git, debugging, and collaborative development.

Achievements & Certifications

- Completed online certification in Python / Java programming
- Participated in coding competitions and technical workshops

Hobbies & Interests

Problem solving, learning new technologies, reading technical blogs, contributing to coding projects
